## **CHROMALLOY MATERIAL SOLUTIONS UNVEILS NEW FORT LAUDERDALE, FLORIDA, SALES AND WAREHOUSE OPERATION**

**PALM BEACH GARDENS, FLORIDA, May 21, 2015** – Chromalloy today announced a new Fort Lauderdale, Florida, sales and warehouse facility to house its growing Chromalloy Material Solutions (CMS) business unit.

“Chromalloy Material Solutions, our global parts and materials trading business, has moved into a new 70,000 square foot facility to better serve customers,” said Carlo Luzzatto, President. “As a material and asset provider to the global gas turbine engine industry, CMS staff and warehouse are now poised for additional growth in the expanding materials arena.”

Previously Chromalloy Materials Solutions staff and equipment were in San Antonio, Texas; Newnan, Georgia; and Miramar, Florida. Locating the company’s trading business at a single larger site will drive customer efficiency while offering space for future growth.

Formed in 2010, Chromalloy Material Solutions is a materials distribution business that buys, sells and exchanges repair parts materials to the airlines, MROs, depots and other customers. Led by Todd Jensen, General Manager, Chromalloy Material Solutions operates in materials from engine parts and components to entire engine systems, airframe materials, and a range of energy industry materials including aero-derivative gas turbines used for power generation.

The business also provides management and supply chain support for aftermarket supply companies worldwide and assists in establishing market values for repairs and inventory.

Chromalloy, a leading supplier of technologically advanced repairs, coatings, investment castings, and services for turbine airfoils and other critical engine components, serves engine manufacturers and operators in commercial aerospace, defense, and energy. Chromalloy facilities include operations, annexes and sales offices in 17 countries. More information is at [www.chromalloy.com](http://www.chromalloy.com).

###

**Chromalloy** has evolved from a gas turbine parts repair business into an OEM supplier of production parts and advanced repairs and services for gas turbines used in aviation and land-based applications. Chromalloy serves the airline, military, marine and energy segments with a broad range of services at locations around the globe. Chromalloy is authorized by the FAA and EASA and many other NAAs, and is qualified under ISO and NADCAP. Chromalloy is a subsidiary of Sequa Corporation.

**Sequa Corporation** is a diversified industrial company with operations in the aerospace, energy and metal coatings industries. Sequa is a Carlyle Group company. For additional information, visit [www.sequa.com](http://www.sequa.com).
