Chromalloy Names New General Manager at San Diego Turbine Engine Repair and Overhaul Operation

SAN ANTONIO, May 18, 2009 – Chromalloy announced today that Martin George has been named General Manager of the company's San Diego operation.

"San Diego is a key operation in Chromalloy's global network, serving commercial and military aerospace customers as well as the aero-derivative industrial segment with engine service, repair and components," said Scott Ransley, Chromalloy Vice President, Operations, Commercial Repair & Overhaul. "Martin brings nearly 20 years of technical leadership and overall management experience to the operation."

George has been acting General Manager since January when Nat Love, the facility's former General Manager, moved to a technical leadership position on Chromalloy's corporate team.

Prior to acting General Manager, George was Director of Operations at San Diego, responsible for day-to-day operations, certifications, audits and continuous improvement programs. He held other technical leadership positions after joining the company in 1991 as a production engineer at the Holland maintenance, repair and overhaul operation.

He holds a Bachelor's Degree in mechanical engineering from Stow College in Scotland, and certification in Design of Experiment and Lean Manufacturing. He completed the University of California-San Diego Executive Program for Scientists and Engineers, and is also a certified Six Sigma Black Belt.

Chromalloy is a supplier of advanced repairs and services for gas turbines used in aviation and land-based applications, repairs, and refurbishes and manufactures engine components. The company also designs and manufactures PMA (Parts Manufacturer Approval) replacement parts for aircraft engines that are FAA certified to meet or exceed the performance, reliability and durability specifications of original equipment manufacturer parts.

CHROMALLOY

In support of land-based vehicles, Chromalloy employs identical engineering disciplines used to produce its FAA-certified parts.

Chromalloy serves commercial, military and industrial turbine engine operators worldwide and has operations in the U.S., Mexico, the U.K., Netherlands, Italy, Germany, France, the U.A.E., Israel, China, Singapore, Thailand, Japan and Australia.

Chromalloy has evolved from a gas turbine parts repair business into the leading independent supplier of advanced repairs, parts and MRO for gas turbines used in aviation and land-based applications. Today Chromalloy serves the airline, military, marine and industrial gas turbine markets with a broad range of services from locations in 14 countries around the globe. Chromalloy is authorized by the FAA and EASA and many other NAA's and is qualified under ISO and NADCAP. Chromalloy is a division of Sequa Corporation.

Sequa Corporation is a diversified industrial company with operations in the aerospace, metal coatings and automotive industries. Sequa is a Carlyle Group company. For additional information, visit www.sequa.com.
