

# Chromalloy names Colombo as VP of Energy

Jun 10, 2013

Chromalloy appointed Andrea Colombo as vice president of Energy, taking the helm from company President Carlo Luzzatto, who has been in a dual leadership role since the company announced the Strategic Business Unit (SBU) in 2012.

Colombo previously worked at GE Oil & Gas, most recently as the Asia Pacific Projects Operations and Branch Manager in Australia. He holds a Master in Engineering in the area of nuclear energy from the Università di Padova in Italy.

Chromalloy supplies repairs, coatings and services for turbine airfoils and other critical engine components.
