CHROMALLOY LABORATORIES RECEIVE ISO/IEC 17025:2005 ACCREDITATION

PALM BEACH GARDENS, FLORIDA, May 6, 2014 – [Chromalloy](#) announced today that the six laboratories at the company's Engineering Center of Excellence have received ISO/IEC 17025 accreditation, validating international standards requirements for testing services.

"With ISO/IEC 17025 accreditation Chromalloy builds on our world-class processes with the technical competence and ability to produce precise and accurate test data for customers around the globe," said Carlo Luzzatto, President. "Chromalloy provides the entire value chain of services for gas turbine components, from engineering and testing through casting, machining and advanced coatings."

The following Chromalloy labs were accredited to ISO/IEC 17025 by the ANSI-ASQ National Accreditation Board/ACLASS: Metallurgy, Modal, Fatigue, Airflow, Metrology and Optical Metrology.

ISO/IEC 17025 accreditation required evaluation by ACLASS technical assessors of the laboratories' ability to produce accurate test data.

Accredited labs are regularly reassessed to ensure the process standards and technical expertise are maintained.

Chromalloy's Engineering Center of Excellence in Palm Beach Gardens, Florida, serves the company's global network of gas turbine engine component repair and manufacturing centers, and also provides engineering, test and lab services to customers worldwide.

Chromalloy is a leading supplier of technologically advanced repairs, coatings, investment castings, and services for turbine airfoils and other critical engine components. The company serves engine manufacturers and operators in commercial aerospace, defense, and the energy industry.

Chromalloy facilities include operations, annexes and sales offices in 17 countries around the world. More information is at www.chromalloy.com.

###

Chromalloy has evolved from a gas turbine parts repair business into an OEM supplier of production parts and advanced repairs and services for gas turbines used in aviation and land-based applications. Chromalloy serves the airline, military, marine and energy segments with a broad range of services at locations around the globe. Chromalloy is authorized by the FAA and EASA and many other NAAs, and is qualified under ISO and NADCAP. Chromalloy is a subsidiary of Sequa Corporation.

Sequa Corporation is a diversified industrial company with operations in the aerospace, energy and metal coatings industries. Sequa is a Carlyle Group company. For additional information, visit www.sequa.com.
